Wide Neck Drums

With screw lid

0.8|1|1.3|1.6|2.6|4|5.3|6.9|11.1|14.5|18 gal
2.9|3.6|5|6|10|15|20|26|42|55|68 liters

Water vapor and leak tight
UN certified (1H2) for solids
HDPE

Recycled Wide Neck Drums

With screw lid

0.8|1|1.3|1.6|2.6|4|5.3|6.9|11.1|14.5 gal
2.9|3.6|5|6|10|15|20|26|42|55 liters

Water vapor and leak tight
UN certified (1H2) for solids
Recycled HDPE (not food safe)

Biobased Wide Neck Drums

With screw lid

0.8|1|1.3|1.6|2.6|4|5.3|6.9 gal
2.9|3.6|5|6|10|15|20|26 liters

Water vapor and leak tight
UN certified (1H2) for solids
Bio HDPE

Total Opening Drums

With screw lid

4.5|6.9|9|10.3|14.5|16.9|19.8|23.8|29.1 gal
17|26|34|39|55|64|75|90|110 liters

Water vapor and leak tight
UN certified (1H2) for solids
HDPE

Nestable Drums

With screw lid

7.9|10.6|13.2|15.8|19.8|30.4|31.7|39.6 gal
30|40|50|60|75|115|120|150 liters

Water vapor and leak tight
UN certified (1H2) for solids
HDPE

Square Drums

With screw lid

10.6|13.2|17.4|21.1 gal
40|50|66|80 liters

Water vapor and leak tight
UN certified (1H2W) for solids
HDPE

Conductive Drums

With screw lid

1|1.6|2.6|4|5.3|6.9|19.8 gal
3.6|6|10|15|20|26|75 liters

Surface resistivity $\leq 1,000,000$ Ohm
Water vapor and leak tight
UN certified (1H2) for solids
Conductive HDPE (not food safe)

UV Safe Drums

With screw lid

1.6|4|6.9|14.5 gal
6|15|26|55 liters

UV protection within the 200 – 400 nm range
Water vapor and leak tight
UN certified (1H2) for solids
HDPE

Rectangular Drums

With sliding lid

10.6 gal
40 liters

Water vapor tight
UN certified (3H2) for solids
HDPE

Click Pack Pails

With screw lid

1.6|2.5|4|5.3|6.6 gal
6|10|15|20|25 liters

Open and close with just a quarter-turn
Water vapor tight
UN certified (1H2) for solids
HDPE

Recycled Click Pack Pails

With screw lid

1.6|2.5|4|5.3|6.6 gal
6|10|15|20|25 liters

Open and close with just a quarter-turn
Water vapor tight
UN certified (1H2) for solids
Recycled HDPE (not food safe)

Press Pack Pails

With screw lid

5.3|7.9 gal
20|30 liters

Press-on the lid to close, turn to open an re-close
Water vapor and leak tight
UN certified (1H2) for solids
PP

Fold Pack Pails

With press-on lid

8.5 gal
32 liters

Water vapor tight
UN certified (3H2) for solids
HDPE

Duo Pack Pails

With insert and press-on lid

0.3|1.3|2.5 gal
1.2|5|10 liters

For two-component materials
Splash-water tight
UN certified (1H2) for solids (except the 0.3 and 2.5 gal)
PE

Packo Jars

With screw lid and innerseal or screw lid with integrated gasket

10.1|16.9|22|33.8|44|50.7|67.6|84.5 fl oz
300|500|650|1000|1300|1500|2000|2500 ml

Open and close with just a quarter-turn
Water vapor tight
UN certified (1H2) for solids
HDPE
Lids available in 8 standard colors

Biobased Packo Jars

With screw lid and innerseal or screw lid with integrated gasket

10.1|16.9|22|33.8|44|50.7|67.6|84.5 fl oz
300|500|650|1000|1300|1500|2000|2500 ml

Open and close with just a quarter-turn
Water vapor tight
UN certified (1H2) for solids
Bio HDPE

UV Safe Packo Jars

With screw lid and innerseal or screw lid with integrated gasket

10.1|16.9|22|33.8|44 fl oz
300|500|650|1000|1300 ml

UV protection within the 200 – 400 nm range
Open and close with just a quarter-turn
Water vapor tight
UN certified (1H2) for solids
HDPE

Pharma Grade Packo Jars

With screw lid and innerseal

10.1|16.9|22|33.8|44 fl oz
300|500|650|1000|1300 ml

Certified according to EU and US Pharmacopeia
Open and close with just a quarter-turn
Water vapor tight
UN certified (1H2) for solids
HDPE

About High Performance Packaging

CurTec drums, pails and jars with their signature screw lid closure are designed to meet the highest industry demands with regard to safety, security and certification. Our distinctive packaging products are made from HDPE and manufactured to GMP standards of quality and cleanliness. They are moisture (vapour) and leak tight, tamper evident and UN certified for hazardous solids.

Benefits & Features

The properties of CurTec packaging offer advantages that **reduce supply chain costs and increase customer satisfaction:**

- Shortening process time: screw, sliding and press-on lids can be operated safely and quickly
- Avoiding contamination: CurTec manufactures optically clean packaging
- Avoiding solid solution softening/ powder caking: mounted or integrated gaskets prevent moisture ingress
- Securing valuable content: sealing features reveal and prevent tampering
- Shipping hazmat safely: CurTec packaging is UN certified
- Guaranteeing food safety: CurTec packaging complies with FDA and FSSC standards
- Optimizing storage and shipment of empty packaging: nestable solutions take up less storage space
- Improving brand identity: CurTec packaging products have a distinctive design
- Lowering carbon footprint: plastic packaging can be re-used and easily recycled
