

## CASE STUDY

# 'What moves Fashionwheels'

### **CURTEC'S ORDER PICKING CRATES CREATE A FLEXIBLE WAREHOUSE**

Flexibility moves Fashionwheels. This includes a flexible warehouse.

Fashion Forward, that is the philosophy at Fashionwheels. A driven and ambitious logistics provider with total solutions and with a European partner network for the fashion industry. A market that is highly susceptible to trends and seasons. Where you have to respond quickly to everything that happens on

the shop floor. This means flawless deliveries, but also sometimes flawless returns.

#### **Order and tidiness give the appearance of quality**

In a sensitive sector such as fashion appearance is important. Within an efficient logistics warehousing concept run by Fashionwheels, the order and tidiness of the warehouse are the physical USPs. Fashionwheels regularly receives compliments from its customers about the storage method with CurTec's order picking crates.

use of CurTec's order picking crates. An order picking zone that meets current needs can be set up easily and quickly. If the crates are temporarily not used, they can be stored efficiently due to the nestability which creates space.

At Fashion Wheels each outgoing shipment is checked for quantity, items, colour and size. Likewise with all incoming production orders, when all products are made sales-ready. This requires a warehouse without any unexpected lack of space. Static racks are not a solution. For hanging clothes Fashionwheels has an automated infrastructure and for the so-called horizontal clothing and fashion accessories Fashionwheels makes

## CASE STUDY: 'WHAT MOVES FASHIONWHEELS'

### Room for e-fulfilment too

Fashionwheels also sees the emergence of online shops as a second sales channel for retailers. With online shop sales numbers are low, return rates high and delivery processes to private addresses complex. Besides Fashionwheels' own advanced ICT for administrative settlement, it is also true that CurTec's order picking crates are a good solution.

The label area under the order picking opening ensures that attached location labels can be easily removed. Moreover, the order picking crates are suitable for roller conveyors and flow racks.
